EDUCATION

Dhanalakshmi Srinivasan University, Trichy

B.Tech – Artificial Intelligence and Data Science
Expected Graduation: 2027
CGPA: 7.5

TECHNICAL SKILLS

Programming

- Python
- JavaScript

Web Development

- HTML5
- CSS3

Currently Learning

- React.js
- Node.js
- Express.js
- MongoDB

Tools

- Git
- GitHub
- VS Code
- Postman

LANGUAGES

- English
- Tamil

PROFESSIONAL SUMMARY

B.Tech Artificial Intelligence and Data Science student passionate about software development and full-stack technologies. Skilled in Python, JavaScript, HTML, and CSS, with an interest in building practical applications and solving real-world problems.

PROJECTS

LANDGUARD AI — AI-Assisted Land Document Cross-Verification System

Designed a system concept to cross-verify Patta, Chitta, Encumbrance Certificate (EC), and Sale Deed documents.

Identifies key fields such as owner name, survey number, subdivision number, land extent, village, and registration details for comparison.

Planned features include inconsistency detection, risk scoring, and explainable case summaries to support human review.

Technology stack: React, JavaScript, Python, Flask REST API, SQL database, and OCR/NLP processing.

SoulSync AI — Emotional Wellness Assistant

Designed an AI-powered emotional wellness assistant concept with conversational support and daily emotional check-ins.

Planned personalized interactions and emergency-contact notification workflows.

Weather App

Weather application using API integration to display weather information.

Focused on responsive UI and error handling for invalid inputs and API issues.

TECHNICAL & SOFT SKILLS

Problem Solving ,Communication , Teamwork , Adaptability ,
Quick Learning ,Time Management.

ACHIEVEMENTS & LEARNING

Actively learning Full Stack Development through hands-on practice.Building projects to strengthen programming and application development skills.
